**Subject : Descriptions of PPG IC Extrusion China Certified Applicator**

### **Classification System-----2018 Version**

---

Dear Customers,

Thank you very much for your long-term support for PPG. As the earliest paint manufacturer applying fluorocarbon coatings in the construction industry and having more than 50 years of professional experience in the production of fluorocarbon coatings, PPG is committed to providing owners, architects and certified fluorocarbon coating customers with excellent service and high quality of fluorocarbon coating.

In order to promote the healthy development of the fluorocarbon spraying industry, we provide truly excellent certified customers of PPG with more support and services, and safeguard the interests of customers to help the owners, designers and consultants select truly outstanding qualified paint applicator more effectively. PPG Coatings (Tianjin) Co., Ltd. has implemented the system for classification of certified paint applicator in fluorocarbon spraying since 2012. The classification system is consistent with the provisions of PPG US in quality supervision and the applicators are classified according to the Chinese regional government environmental protection requirements, market environment, industry and customer characteristics:

PPG IC China fluorocarbon coating applicators are divided into three levels:

## **The first level: Level A certified applicator**

- ◆ Having a high level of product quality and being able to pass the annual audit of application line by PPG during the authorization period;
- ◆ Having established a solid customer relationship with PPG, PPG fluorocarbon paint accounts for not less than 70% in their imported brand share;
- ◆ Having cooperated with PPG for not less than 5 years and there is no major quality responsibility accident;
- ◆ Having partner-type customer relationships with PPG, good matching of paint package, and being willing to actively recommend PPG without passing off as PPG;
- ◆ PPG provides quality services;
- ◆ Valid for two years

## **The second level: Level B certified applicator**

- ◆ Having a stable product quality and being able to pass the annual audit of application line by PPG during the authorization period;
- ◆ Having established a solid customer relationship with PPG, and PPG is the major supplier of fluorocarbon paint in their imported brands;
- ◆ Having cooperated with PPG for not less than 3 years and there is no major quality responsibility accident;
- ◆ Good matching of paint package;
- ◆ Valid for one year

## The third level: Level C certified applicator

- ◆ Having a qualified product quality and being able to pass the audit of application line by PPG;
- ◆ Having cooperated with PPG for not less than 2 years and there is no major quality responsibility accident;
- ◆ Good matching of paint package;
- ◆ Valid for one year

The above list of certified customers and updates thereof may be found on the PPG website <http://www.ppgmetalcoatings.com>

Scan the following two-dimensional code to inquire the authenticity of PPG fluorocarbon coating authorized applicator certificate through WeChat public account “PPG Industrial Coatings”. If you have any questions, you may also contact the PPG's sales representative for consultation.
